

Julia Maryane Arwari

217-417-0380 julia.arwari@emory.edu

Education

Rollins School of Public Health, Emory University, Atlanta, GA May 2026

Master of Public Health in Environmental Health, *Certificate* in Data Science, 3.97 GPA

Cecelia D. '65C and James L. Ferman Jr. '65B Scholarship Recipient

University of Miami, Coral Gables, FL May 2024

Bachelor of Science in Public Health, *Minor* in Exercise Physiology, *Cum Laude*

Canes Achievement Scholarship Recipient

Coursework and Skills

- **Technical Skills** – R; ArcGIS Pro; SQL; Berkeley Madonna; Python; SAS; Git/GitHub; REDCap; ODK; EndNote; Microsoft Office Suite; Canva
- **Graduate Coursework** – Epidemiologic Methods; Occupational/Environmental Epidemiology; Human Toxicology; Risk Assessment; Methods for Environmental Mixtures; Advanced GIS; Python Programming; Database Development for Public Health; Internal Exposure Modeling
- **Languages** – Spanish (fluent comprehension; intermediate speaking)
- **Certifications** – CITI Program Social & Behavioral Research and RCR, Basic Course (Exp. Jan 2028)

Research and Work Experience

The Carter Center, Atlanta, GA

Data Analytics and Epidemiology Assistant – Trachoma Control Program September 2025-May 2026

- Partnered with Trachoma Control Program (TCP) staff and Ministries of Health to advance surveillance, data management, and program evaluation initiatives across multiple country programs
- Developed and implemented electronic data collection instruments in ODK for household trachoma surveillance, improving data quality and streamlining field-based monitoring systems
- Led cartographic production in ArcGIS Pro for annual program review in Amhara, Ethiopia; designed standardized mapping templates for Niger to enhance national reporting
- Prepared technical reports and data summaries for Ministries of Health, Republic of South Sudan, to inform program planning and implementation
- Conducted statistical and geospatial analyses of integrated trachoma–malaria serosurveillance data ($n > 9,000$) in South Sudan using R and ArcGIS Pro; produced prevalence estimates and visualizations, authored an epidemiologic report for Ministries of Health, and presented findings to guide surveillance strategy

Emory University, Atlanta, GA

Graduate Research Assistant May 2025-May 2026

- Designed and administered a nationwide faculty survey using REDCap; managed database structure, conducted recruitment, implemented data quality checks, and performed statistical analyses in R to examine federal funding impacts on faculty well-being; first-authored manuscript (completed, not submitted)
- Performed data cleaning, variable construction, and regression analyses in R for a prospective birth cohort study examining prenatal glyphosate and AMPA exposure and oxidative stress; first-authored manuscript currently under peer review

Centers for Disease Control and Prevention, Atlanta, GA

Public Health Epidemiology Assistant – NCBDDD Division December 2024-May 2025

- Contributed to epidemiologic research and data management for multi-site birth defects studies (NBDPS and BD-STEPS), facilitating standardized documentation and cross-site study coordination
- Used SAS to update and standardize study codebooks, improving data harmonization and analytic consistency across research teams

- Managed a centralized database tracking 400+ manuscripts to streamline data-sharing requests and research dissemination; conducted structured literature searches on congenital heart defects to inform ongoing epidemiologic analyses

University of Miami Richter Library, Coral Gables, FL

Peer Research Consultant

August 2021-August 2024

- Delivered research support services to students, including developing search strategies, recommending databases, and managing citations; contributed to library projects such as updating research guides and curating a themed book display

Florida Department of Health in Miami-Dade County, Miami, FL

Office of Community Health and Planning Intern

January 2024-May 2024

- Maintained and updated the Tobacco Prevention and Control division's Q3 and Q4 logs of smoke-free policies in 400 identified multiunit housing communities located in Miami-Dade County through phone interviews with property managers
- Delivered a literature review to identify facilitators and barriers to smoke-free policies in multiunit housing in the County to support evidence-based decision-making and strategic planning initiatives within the Tobacco Prevention and Control division

Florida Area Health Education Center Scholars Program, Miami, FL

MDAHEC Scholar

November 2022-May 2024

- Presented with interdisciplinary teams on topics including breast cancer, tobacco use, and poison control to educate medically underserved and at-risk populations at local high schools and Community Health & Wellness Fairs serving 200+ attendees

CDC John R. Lewis Undergraduate Public Health Scholars Program (Remote)

Southern Plains Tribal Health Board Intern

May 2023-July 2023

- Designed and presented a research poster on health disparities among American Indians and Alaska Natives at the 2023 CDC Showcase (300+ attendees); completed trainings in cultural competency, epidemiology, digital storytelling, and racial misclassification in data

Leadership Experience

Environmental Health Representative of Rollins Student Government Association

2025-2026

- Planned and hosted departmental, interdepartmental, and town hall events to enrich student experience; managed a \$2,500 operating budget; coordinated room reservations and catering; promoted and facilitated events; served as a primary resource and advocate for students through engagement with the Gangarosa Department of Environmental Health executive faculty committee

Vice President of Emory Students for One Health

2025-2026

- Served as primary operational support to the president and executive board; organized event logistics, prepared and submitted approval forms and budgets, maintained and updated the organization's homepage, and coordinated promotion and execution of events including panel discussions and guest speaker sessions

Presentations

Access to Substance Abuse Treatment Among American Indians and Alaska Natives: A Comparative Analysis between Rural and Urban Areas, CDC John R. Lewis Undergraduate Public Health Scholars and Dr. James A. Ferguson Emerging Infectious Diseases Graduate Fellowship Student Showcase

July, 2023

Presented findings on disparities in access to substance use treatment among American Indian and Alaska Native populations, emphasizing the need for culturally competent and accessible programs.
